ROBOTREE JUNIOR INNOVATION LAB

PROPOSAL

(A Composite Lab of Robotics, AI, Drone Technology, 3D Printing & AR/VR)

Presented By
Robotree Robotics LLP

INTRODUCTION

Robotree Robotics LLP proposes to establish a Robotree Junior Innovation Lab within your esteemed institution — a next-generation composite lab integrating multiple advanced technologies into one unified learning ecosystem.
This initiative is designed to equip students with future-ready skills, hands-on exposure, and innovation-driven learning aligned with modern education standards.

VISION & OBJECTIVE

- To create a Mini Centre of Excellence within the school
- To promote practical and experiential learning
- To develop innovation, creativity, and problem-solving skills
- To align with NEP 2020 & Skill Development initiatives
- To prepare students for careers in Industry 4.0 technologies

LAB COMPONENTS (COMPOSITE SETUP)

The Robotree Junior Innovation Lab will include:

Robotics & ATL Section

- Arduino / IoT-based microcontroller kits
- Sensors, modules, and electronics components
- DIY robotics kits and innovation tools

Drone Technology Lab

- Drone kits (assembly + training models)
- Flight simulation software
- Safety and testing tools

3D Printing & Design Lab

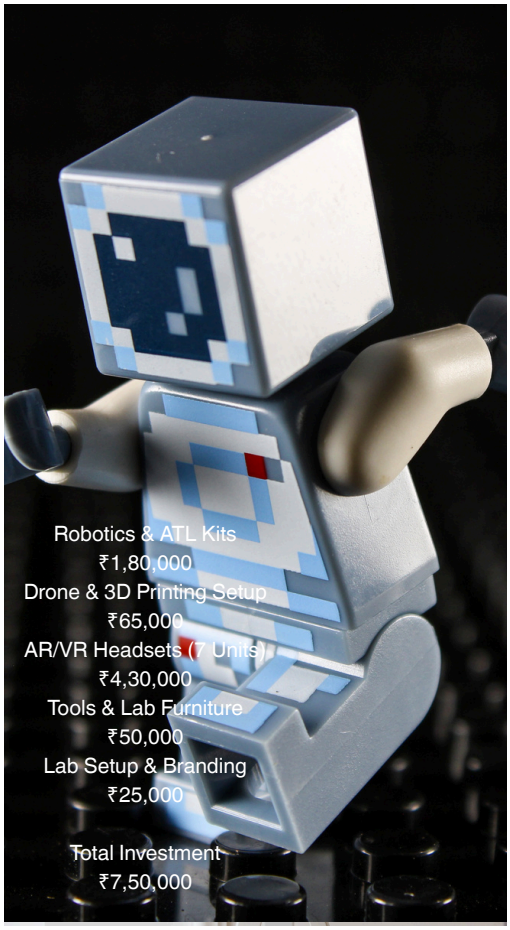

- 1–2 3D Printers
- Filaments and accessories
- CAD design software access

AR/VR Lab

- 5 AR/VR Headsets
- Interactive simulation-based learning modules
- Virtual lab experiences

www.robotree.in

robotree2020@gmail.com

ESTIMATED INVESTMENT (PROVIDED FREE TO SCHOOL)

Component	Cost (INR)
Robotics & ATL Kits	₹1,80,000
Drone & 3D Printing Setup	₹65,000
AR/VR Headsets (7 Units)	₹4,30,000
Tools & Lab Furniture	₹50,000
Lab Setup & Branding	₹25,000
Total Investment	₹7,50,000

Complete lab setup will be installed FREE of cost by Robotree Robotics LLP

BUSINESS MODEL (SUBSCRIPTION-BASED LEARNING)

To ensure sustainability and continuous learning:

- Monthly Fee per Student: ₹500 – ₹1000 (customizable)
- Structured batches and weekly sessions
- Certification programs included

REVENUE SHARING MODEL

Revenue will be shared between School & Robotree Robotics LLP

Suggested Structure:

- Robotree Robotics: 60% – 70%
- School: 30% – 40%

(Final terms mutually agreed)

SERVICES BY ROBOTREE ROBOTICS

Trainers Deployment

- 2 Dedicated Trainers at school
- Expert-led sessions and guidance

Maintenance & Support

- Quarterly Equipment Maintenance
- Regular servicing and upgrades
- Technical support

Curriculum & Learning

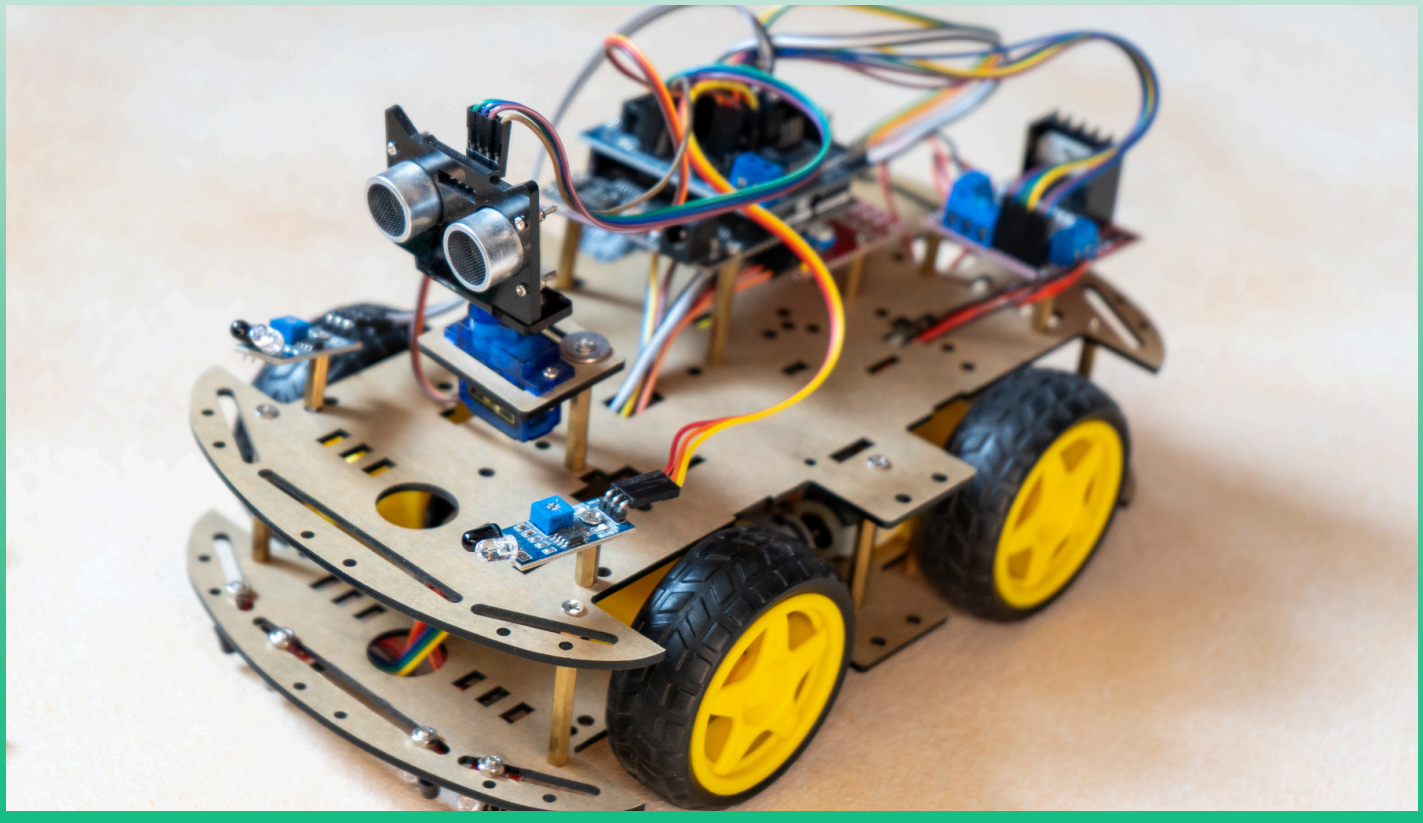

- Age-wise structured curriculum
- Hands-on project-based learning
- Exhibition & competition support

Branding & Certification

- Lab branding as Robotree Junior Innovation Lab
- Student certification programs
- Participation in national-level competitions

SCHOOL RESPONSIBILITIES

- Provide dedicated lab space (500–800 sq. ft.)
- Ensure electricity and basic infrastructur
- Support student enrollment
- Assign a school coordinator

AGREEMENT TERMS

Duration: 5 Years

Robotree Robotics will:

- Install and manage the lab
- Provide trainers and maintenance

School will:

- Allow uninterrupted operations
- Support program implementation

Key Benefits for School

- No investment (₹7.5 Lakhs lab setup FREE)
- Enhanced school reputation & admissions
- Advanced technology infrastructure
- Industry-aligned skill development

Key Benefits for Students

- Hands-on practical exposure
- Real-world technology learning
- Innovation & project development
- Career readiness in AI, Robotics, Drone, etc.

Conclusion

The Robotree Junior Innovation Lab will transform your institution into a future-ready innovation hub, empowering students with critical 21st-century skills.

We look forward to a long-term collaboration.

Client Testimonials

Outstanding Robotics and Automation Workshop! *NIT, Arunachal Pradesh*

The 7-day Robotics and Automation workshop conducted by Robotree Robotics LLP at NIT Arunachal Pradesh was an incredible success. The workshop provided our students with a solid foundation in robotics, hands-on learning, and advanced automation concepts. The trainers were highly knowledgeable, engaging, and ensured each student grasped complex ideas effectively. Our students left inspired, motivated, and eager to explore further in the field of robotics. This workshop was a transformative experience that we highly recommend for any institution looking to enhance their students' technical skills and innovation capacity!

Impressive and Inspiring!

Principal - DAV Model School

Robotree Robotics LLP conducted an exceptional Robotics and Automation workshop at DAV Model School, Asansol, that truly inspired both our students and faculty. The workshop was thoughtfully designed, blending hands-on activities with foundational knowledge, and provided our students with a clear pathway to understand robotics concepts and real-world applications. The trainers were not only experts in their field but also knew how to spark curiosity and engage each student, regardless of their skill level. We witnessed students collaborate, innovate, and develop problem-solving skills that go beyond the classroom. This workshop has ignited a passion for technology in our students, and we look forward to more such enriching sessions with Robotree Robotics LLP!

Client Testimonials

Exceptional Training!

Principal JNV Dakshin Dinajpur

The robotics workshop exceeded our expectations. The hands-on sessions were well-organized, and students gained valuable skills in building and Programming robots. They're now more excited than ever about technology and STEM careers.

Highly recommended!

Engaging and Informative Sessions!

Principal, JNV Roing, Arunachal Pradesh

The cyber security workshop was a game-changer for our students. They learned how to stay safe online and understand real-world applications of cybersecurity. The trainers were knowledgeable, and the curriculum was perfectly suited to the students' level. A 5-star experience!

Highly Professional and Effective!

Principal, JNV Mon, Nagaland

Robotree Robotics LLP delivered a fantastic workshop for our senior students. They are equipped with essential skills to manage and perform responsibly and creatively. The training was interactive and full of practical insights.

Thank you!
